Please provide descriptions in the box summarizing the following four points (*each is limited a one page response only*):

1. Clearly state the nominee's goals and objectives related to coral reef conservation.

2. Summarize the nominee's specific actions or programs to enhance or provide lasting conservation for Hawaii's reef ecosystem.

3. Explain any creative or innovative ways the nominee applied resources and/or developed new tools to address the problems facing Hawaii's reefs.

5. Provide evidence of achievement of the objectives of the project (i.e., letters of endorsement, positive media coverage, etc.). You may include up to 5 pages of additional material (PDF, Word, Excel, PowerPoint or similar files) along with digital video or audio clips. Clips should be representative of the work and no more than 15 minutes in total length. Attachments may be up to 3 MG if emailed.
